PROJECTS

NewsApp :

- Created a responsive News Web App using React. Utilized APIs to fetch real-time news articles from various sources. Implemented user-friendly UI/UX design for smooth navigation. Incorporated features like many category news . Developed the app with reusable components and ensured optimal performance.
- Technology & Framework use : React, Js, Bootsrap,css,HTML and NewsApi

Drawing Board :

- It is desktop drawing web application in which we can draw anything and download it .
- Technology use : html,css,JavaScript.
- Link : https://ankit632.github.io/Drawing_Board/

TextUtils

- Textutils Developed TextUtils, a React-based web application that offers essential text manipulation tools. Users can analyze and modify text by performing tasks like character/word count, converting to uppercase/lowercase, removing extra spaces, and more. Implemented a user-friendly interface and ensured a responsive design for users.
- Technology & Framework use : React,JS ,HTML,CS.
